Subway Strip Maps Explanation

All TTC surface routes (except routes 99, 403, and 405) connect with the subway system. Specific connections for all surface routes and branches of routes are shown on the Subway Strip Maps to the right and below.

Indicates a transfer is required to connect between the subway system and these routes.

A grey background indicates a 61A PASS or additional fare is required to connect between subway system and these routes.

Map Features

- TTC Metropark Parking
- TTC Cash Parking
- TTC Metropark & Cash Parking Available
- Place of Interest
- Arrows indicate the direction of travel around a loop.
- Highlight notes with arrows indicate reverse looping changes.
- Public Washroom
- Accessible Station
- GO Transit Parking

How to Read Bus Route Numbers and Notes

- A '+' indicates that all branches run along that portion of the route. For example, 87+ indicates the presence of all branches: the 87, the 87A, the 87B.
- A '*' separates the branch in a route box where only some of the branches follow that portion of the route. For example, 87.A* indicates the presence of the 87A and the 87B, but not the 87.
- A rectangular box indicates a route end point or a branch of a route end point.
- A pointed box is angled to show the direction of travel.
- A yellow rectangular box indicates the end point of an express route or the end point of an express branch of a route. Note that route lines are not shown for express branches on regular routes.
- A yellow pointed box shows the direction of travel on Express and Rocket routes.

Seasonal Service

Service provided on these routes or branches during specific periods of the year.

298 Dufferin to Ontario Place	May to mid-August
308 Lambton	June to Labour Day
